order to manage their charging needs cost-effectively. Under this option, EV Drivers will be billed each month on their monthly SDG&E bills. *Power Your Drive* Facility site usage patterns will be monitored and tracked. This data will be used to inform California Public Utility Commission (CPUC) policy.

13.2 Rates-to-Host Billing Option. Site Hosts will be notified each day by 9pm by the selected EVSP of the day ahead hourly billing rates for each hour of the 24 hour period commencing at 12am. Site Hosts will be billed each month on their SDG&E bills for the total charges for the entirety of all EV charging sessions incurred by the *Power Your Drive* Facility.

13.2.1 Load Management Plan. Where the Site Host opts for the Rate-to-Host billing option, the Site Host, or its selected EVSP, will be required to submit to SDG&E load management tactics in accordance with the Guiding Principles (*Exhibit C*) that it will implement at its *Power Your Drive* Facility, including the incremental costs and equipment requirement to implement the load management tactics, the prices or fees that it intends to levy on *Power Your Drive* Facility users (EV Drivers), and any vehicle or EVSE communication systems necessary to implement the load management tactics. Site Hosts that do not submit load management plans consistent with the Guiding Principles will be asked by SDG&E to revise accordingly and will be ineligible to participate until SDG&E determines that the load management plan is consistent with the Guiding Principles. Participation in the Rate-to-Host option will not be unreasonably withheld. *Power Your Drive* Facility site usage patterns will be monitored, and in addition, Site Host-determined prices or fees to use the *Power Your Drive* Facility will be tracked. This data will be used to inform California Public Utility Commission (CPUC) policy.
