

Attachment A to Agenda Item 2020-0408

2018-2022 Legislative Platform							
	Issue	Policy Statement	COMPASS Strategic Goal (s)	Maritime	HPD	Real Est.	PGP
1	Port Structure	Preserve and protect the original purpose and intent of the Port District Act and the Public Trust Doctrine. Ensure that any legislative changes to the governance structure of the Port of San Diego are approved by the Board of Port Commissioners.	Goal 8: A financially sustainable Port that drives job creation and regional economic vitality. Goal 4: A Port with a healthy and sustainable bay and its environment. Goal 1: A port that the public understands and trusts.	X	X	X	X
2	Port Resources	Support laws, ordinances and regulations that preserve Port resources for the management and development of state tidelands within the Port's jurisdictions consistent with the Port District Act and the Public Trust Doctrine. Oppose proposals that would divert tidelands resources to non-maritime or non-tidelands related activities outside of the Port's jurisdiction.	Goal 5: A Port with a comprehensive vision for Port land and water uses integrated to regional plans. Goal 4: A Port with a healthy and sustainable bay and its environment.	X	X	X	X
3	Port Jurisdiction	Support policies that recognize the territorial integrity of the San Diego Unified Port District. Ensure that proposals for land exchanges or any transfer of land-use authority of state tidelands currently entrusted to the Port of San Diego are approved by the Board of Port Commissioners.	Goal 2: A thriving and modern maritime seaport. Goal 8: A financially sustainable Port that drives job creation and regional economic vitality.	X	X	X	X
4	External Relations	Support Policies that provide for increased coordination among regional, strategic, and nationwide ports. Support the development of a comprehensive and centralized maritime freight strategy. Seek to build meaningful and lasting policy relationships with stakeholders in the goods-movement community at home and abroad.	Goal 8: A financially sustainable Port that drives job creation and regional economic vitality. Goal 2: A thriving and modern maritime seaport. Goal 4: A Port with a healthy and sustainable bay and its environment.	X		X	
5	Maritime	Preserve and promote maritime-industrial uses of state tidelands and support proposals that enhance and activate the regional maritime economy. Pursue policies that grow marine terminals as goods-movement and strategic port gateways, including support for inter-modal transportation projects and district on-terminal/off-terminal activities.	Goal 2: A thriving and modern maritime seaport. Goal 8: A financially sustainable Port that drives job creating and regional economic vitality. Goal 4: A Port with a healthy and sustainable bay and its environment.	X			X
6	Environment	Support policies that advance the Port of San Diego charge of environmental stewardship consistent with the COMPASS strategic Goals and mission of the Port of San Diego.	Goal 4: A Port with a healthy and sustainable bay and its environment. Goal 6: A Port that is a safe place to visit, work and play. Goal 8: A financially sustainable Port that drives job creating and regional economic vitality.			X	X
7	Integrated Land Use	Support policies that achieve integrated planning purposes and facilitate the development of Port and member-city development projects consistent with COMPASS strategic goals and the mission of the Port of San Diego.	Goal 5: A Port with a comprehensive vision for Port land and water uses integrated to regional plans. Goal 3: A vibrant waterfront destination where residents and visitors converge.		X		X
8	Economic Development	Support policies that drive job creation, economic vitality, and waterfront activation critical to regional industries and the goods-movement economy consistent with COMPASS strategic goals and the mission of the Port of San Diego.	Goal 2: A thriving and modern maritime seaport. Goal 8: A financially sustainable Port that drives job creation and regional economic vitality. Goal 7: A Port with an innovative and motivated workforce.	X		X	X
9	Public Resources	Support policies that increase resources, incentives, and opportunities for infrastructure development and environmental best practices on the part of the Port and the regional goods-movement economy.	Goal 4: A Port with a healthy and sustainable bay and its environment. Goal 3: A vibrant waterfront destination where residents and visitors converge.	X		X	X
10	Regional Leadership	Utilize the Port of San Diego's role as an environmental steward and economic engine to bring a balanced and coordinated approach to regional policy issues consistent with COMPASS strategic goals and the mission of the Port of San Diego.	Goal 8: A financially sustainable Port that drives job creation and regional economic vitality. Goal 4: A Port with a healthy and sustainable bay and its environment. Goal 3: A vibrant waterfront destination where residents and visitors converge. Goal 2: A thriving and modern maritime seaport.	X	X	X	X
