Said fee shall be calculated and based on the schedule as provided in this Agreement.

18. **DISPUTE RESOLUTION**

a. If a dispute arises out of or relates to this Agreement, or the alleged breach thereof, and is not settled by direct negotiation or such other procedures as may be agreed, and if such dispute is not otherwise time barred, the parties agree to first try in good faith to settle the dispute amicably by mediation administered at San Diego, California, by the American Arbitration Association, or by such other provider as the parties may mutually select, prior to initiating any litigation or arbitration. Notice of any such dispute must be filed in writing with the other party within a reasonable time after the dispute has arisen. Any resultant Agreements shall be documented and may be used as the basis for an amendment or directive as appropriate.

b. If mediation is unsuccessful in settling all disputes that are not otherwise time barred, and if both parties agree, any still unresolved disputes may be resolved by arbitration administered at San Diego, California, by the American Arbitration Association, or by such other provider as the parties may mutually select, provided, however, that the Arbitration Award shall be non-binding and advisory only. Any resultant Agreements shall be documented and may be used as the basis for an amendment or directive as appropriate. On demand of the arbitrator or any party to this Agreement, sub-contractor and all parties bound by this arbitration provision agree to join in and become parties to the arbitration proceeding.

c. The foregoing mediation and arbitration procedures notwithstanding, all claim filing requirements of the Agreement documents, the California Government Code, and otherwise, shall remain in full force and effect regardless of whether or not such dispute avoidance and resolution procedures have been implemented, and the time periods within which claims are to be filed or presented to the District Clerk as required by said Agreement, Government Code, and otherwise, shall not be waived, extended or tolled thereby. If a claim is not timely filed or presented, such

claim shall be time barred and the above dispute avoidance and resolution procedures, whether or not implemented or then pending, shall likewise be time barred as to such claims.

The District may in its sole discretion withhold payments or seek reimbursement from the Service Provider for expenses, miscellaneous charges, or other liabilities or increased costs incurred or anticipated by the District which are the fault of or as result of work performed or negligent conduct by or on behalf of the Service Provider. Upon five (5) day written notice to the Service Provider, the District shall have the right to estimate the amount of expenses, miscellaneous charges, or other liabilities or increased costs and to cause the Service Provider to pay the same; and the amount due the Service Provider under this Agreement or the whole or so much of the money due or to become due to the Service Provider under this Agreement as may be considered reasonably necessary by the District shall be retained by the District until such expenses, miscellaneous charges, or other liabilities or increased costs shall have been corrected or otherwise disposed of by the Service Provider at no expense to the District. If such expenses, miscellaneous charges, or other liabilities or increased costs are not corrected or otherwise disposed of at no expense to the District prior to completion date of the Agreement, the District is authorized to pay for such expenses, miscellaneous charges, or other liabilities or increased costs from the amounts retained as outlined above or to seek reimbursement of same from the Service Provider. SCOPE OF SERVICES

San Diego Unified Port District

SCOPE OF SERVICES

Service Provider shall conduct an Environmental Education Program entitled *Guardians of the Bay.*

REQUIREMENTS

Service Provider will complete a program that will empower students to create change in their community to support the health of the San Diego Bay. Through a week-long intensive program, 6-8 grade students will achieve the overall program outcomes:

1. Gain technical skills through hands-on learning opportunities.
2. Utilize technical skills to identify the effects of limited resources on local ecosystems.
3. Create and implement solutions to improve the health of the San Diego Bay and its watersheds.
4. Provide students a skill set that will ignite a passion for their local watersheds and inspire personal responsibility for the conservation of the San Diego Bay. Throughout the course of the program, students will be evaluated on content knowledge, and participate in attitudinal and behavioral assessments. Assessment of their culminating projects will help identify and qualify the overarching themes that students took away from the program.
5. Each individual grade level will focus on different goals and objectives throughout their program as outlined in the following sections.
    a. Sixth Grade Program Goals
        i. Analyze and interpret data of abiotic and biotic factors to determine the health of an ecosystem.
        ii. Identify the effects of human impacts on the Bay.
        iii. Design solutions to improve water quality.
        iv. Students will gain an understanding of how human actions impact local watersheds and influence the Bay's water quality. Using scientific tools and techniques, students will analyze several water samples from a variety of locations, testing for both living and non-living factors that influence water quality and ecosystem health. They will then compare and contrast samples to determine the biological health of the Bay. Based on the interpretation of their data, students will use inquiry and critical thinking to design solutions to improve local water quality. The culmination of these hands-on experiences will result in a community-based project that showcases their growth and expertise as citizen scientists.

b. Seventh Grade Program Goals

   i. Explain how changes in biodiversity relate to human resources.

   ii. Design solutions for maintaining biodiversity and healthy ecosystems.

   iii. Students will apply their acquired skill set from the previous year to help save endangered species and habitats surrounding the San Diego Bay. Through field experiences and interactive lessons, students will learn about native San Diego habitats and the impact humans have on the biodiversity of the region. Students will assess the human need for shared natural resources and will determine solutions for maintaining biodiversity. With healthy ecosystems in mind, students will model the ideal relationship that fosters the coexistence between people, wildlife, and the Bay.

c. Eighth Grade Program Goals

   i. Analyze data to interpret factors that have caused the rise of global temperature.

   ii. Apply scientific principles to minimize human impact on students' local watersheds.

   iii. Lay the foundation for interest and future job skills.

   iv. Building upon the foundation established in previous program years, students will use their comprehensive knowledge base to engage in activities focused on understanding the cause of climate change and the effect it is having on local watersheds. To investigate this issue, students will collect data and conduct vulnerability studies during several field experiences. Students will then be challenged to solve a real-world problem in their San Diego Bay watershed community with the assistance of experts in the field of climate science. Once complete, students will share their projects with classmates, community members, and professionals at a panel presentation to showcase their work and their efforts to conserve the San Diego Bay.
